

# NEBOSH National General Certificate (REF:APIXNGC001)

## Who Should Attend?

Individuals that as part of their role have health and safety responsibilities and require a nationally recognised qualification in health and safety.

## Course Objectives

To provide a formal vocational qualification in health and safety, examined to NVQ level 3.

## Course Description

A 10-day course covering all aspects of health and safety, with the first week concentrating on health and safety management systems and the second week on the control of workplace hazards.

## Pre-requisites

Previous basic health and safety experience and / or qualifications e.g. IOSH Managing Safely would be an advantage, but not essential.

Attendees should have a fair understanding of English Language.

## Course Outcome

There will be an open-book exam for NG1 (which is completed from home) and a risk assessment project for NG2 (approximately 3000 words)

## Course Outline

### Week 1 (NGC 1)

- Element 1 – Why we should manage workplace health and safety
- Element 2 – How health and safety management systems work and what they look like
- Element 3 – Managing risk – understanding people and processes
- Element 4 – Health and Safety monitoring and measuring

### Week 2 (NG 2)

- Element 5 – Physical and psychological health
- Element 6 – Musculo-skeletal health
- Element 7 – Chemical and biological agents
- Element 8 – General workplace issues
- Element 9 – Work equipment
- Element 10 – Fire
- Element 11 - Electricity
